

Major Professor/Faculty Supervisor Student Verification for IETS 2026

Dear IETS,

I am writing to verify my student's status as part of the [International Embryo Technology Society \(IETS\) 2026 Annual Conference](#) student competition process. _____
is a current _____ student in _____ in the
_____ at _____ and is interested in applying to
this organization's _____ to support their academic
and professional development in embryo technology and scientific excellence.

I confirm _____'s eligibility for the _____
by

- Endorsing that the experimental data presented in their submitted abstract is original and was gathered during their degree program,
- Verifying that they were a student in 2025, and
- Confirming that the data in their abstract have not been accepted for publication elsewhere, nor will they be presented at any national or international meeting before the IETS 2026 Annual Conference.

I am aware that if research containing the same data _____ used in their abstract will be published before the competition in January 2026, their abstract must be withdrawn immediately, and they will lose eligibility to compete at the IETS 2026 Annual Conference.

Thank you for supporting _____'s professional development and research ventures through the _____.

Sincerely,
