IETS Innovation Workshop 1
Bringing the In Vitro-Produced Embryo to the Commercial Cattle Producer

October 15 - 16, 2012
Casa Monica Hotel, St. Augustine, Florida

• The goal of the meeting is to identify approaches to advance the efficacy of transfer of embryos produced in vitro.
• The format is designed to maximize discussion; participants are encouraged to bring one or two slides of data to share.

CONFIRMED SPEAKERS
Jeremy Block, USA – Improving Fertility
Patrick Blondin, Canada – Optimizing IVF
Kei Imai, Japan – Cryopreservation
James Ireland, USA – Ovarian Reserve
Fernando di Croce, USA – Genetic Improvement
Marcelo Marcondes Senada, Brazil – Bos indicus vs. taurus
Marc-Andre Sirard, Canada – Enhancing Oocyte Yield

THINK TANK – SETTING UP AN IVF-BASED EMBRYO PROGRAM
Gabriel Bo, PJ Hansen, Hong Wei, Matt Wheeler, et al.

The venue will be a majestic landmark hotel in the heart of historic St. Augustine, Florida (the oldest city in the United States) and along the Atlantic Ocean. A social event to sample the pleasures of Florida’s First Coast is planned.
