

International Student Affairs Subcommittee (ISAS)

International Student Affairs Subcommittee (ISAS) mission is to assist international students on attending the IETS meeting, to promote interactions among international populations, and to enhance learning and professional growth of our IETS international students.

To facilitate this mission, ISAS will serve as an information resource for all members in the International Embryo Transfer Society, not only students/trainees but also supervisors, professors, practitioners and industry. The type of information ISAS will provide includes advice for visa application processes for the country hosting the IETS meeting, accommodation options, job opportunities, and training opportunities, among others.

ISAS strives to foster international awareness and an appreciation of all cultures by promoting cultural exchange among our international attendees through activities such as dinners, seminars, and workshops to be held during the IETS meeting. Those interested in joining ISAS as a regional delegate can contact the Morulas for more information.

Regional delegates duties:

- Liaison between students/trainees in you region and IETS Morulas
- Create a record of student/trainees in your region that are IETS members or that may be interested in becoming members
- Increasing student/trainee enrolment in the IETS Morulas group by promoting IETS Morulas activities/initiatives
- Guide/advise students/trainees in your region in obtaining appropriate travel documentation for each particular IETS meeting location (since attendees from different countries will have different requirements)
- Identify and promote travel funding opportunities in your region. If required, the IETS Morulas will contact the funding agencies directly
- Identify potential job/study opportunities in your region, and promote at each IETS meeting
- If your region is hosting the IETS Annual Meeting, help the IETS Morulas BOG by organizing social activities for the Morulas members
- If your region is hosting the IETS Annual Meeting, provide advice regarding affordable/alternative local accommodations (hostel, B&B, couch-surfing) to be shared with the IETS Morulas members
- Continue to implement and restructure new ISAS initiatives as the organization grows
